Q: Rails link_to shows the wrong title in.html.erb I am using link_to in my.html.erb file for this:

```
"deleteListButton", :title => "Show Comments" %>
```

However, the link_to shows the wrong title, it shows "Show comments on any assignment" as the title. I am not sure why this is occurring. Thank you for the help! A:

Change title for this link as :title => "Show Comments (#{assignment.id})". Because title is always a string so you can pass some other object like this and you need to pass only assignment.id to this method.
