How many people realize that the iconic Dr. Seuss' book *Green Eggs and Ham* was the first ever book created with the software and data pulled from a book scanner? Or do you believe that your life is a gothic horror story without a happy ending? Find out for yourself and discover a world of amazing and meaningful books and what happens to your life if you choose to enter this book into the world. Change your life and create an amazing story of your own! It's time to start looking at your life as an epic novel! What was the first book you ever read? When did you learn to read? The first book I remember reading was a David Foster Wallace book called *ã*. A lot of people who are in their twenties or young thirties are not aware of this fact. More info about *Green Eggs and Ham*. Today is the birthday of Dr. Seuss (also known as Theodor Seuss Geisel), creator of *How the Grinch Stole Christmas*. Do you wonder why his books are so popular all over the world? Or have you always wanted to see what the world looks like if it were populated by creatures from your favorite Dr. Seuss books? Or have you always wondered what kind of life would you live if you were one of those creatures? There are some who are already considering what kind of life they want, and others who are lucky enough to have already had a life they wanted to lead (with stops along the way). But what about others who have never yet lived a life of their choosing? These are the ones who don't yet know what kind of story they want to be living by the end of this year. Or by the end of their lives. Change your life and know that it could be an amazing epic novel of amazing and meaningful books and what happens to your life if you choose to enter this book into the world. And now on this special day, we want to introduce you to Dr. Seuss (also known as Theodor Geisel), the world's most popular children's book author. Theodor Seuss Geisel was born on March 2, 1904, in Springfield, Massachusetts. He was the second of two

Q: How to take a screenshot in Android I am trying to take a screenshot of my screen on my Android phone. The problem is that I want to save the screenshot in the internal memory of the device, NOT the gallery. I am using the following code: Bitmap bm = Bitmap.createBitmap(screenWidth, screenHeight, Bitmap.Config.ARGB_8888); Canvas c = new Canvas(bm); c.drawColor(Color.WHITE); //Draw the screen canvas.drawBitmap(bm, 0, 0, null); //Save send("PNG", "image/png", bm); The above code works perfectly. My problem is that I need to save the bitmap image in the internal memory of the device. I have done some searches and haven't been able to find an answer. Is this possible? A: One way to take a screenshot and save it in your app's internal memory: Create a file in your app's directory: File screenshotDir = new File(getFilesDir(), "screenshot"); Take the screenshot and save it to this location: Bitmap bm = Bitmap.createBitmap(screenWidth, screenHeight, Bitmap.Config.ARGB
