Ileostomy is a procedure of last resort in the treatment of Crohn's disease. We have reviewed the records of 50 patients with distal ileal or right colonic Crohn's disease treated with an ileostomy button. There was no operative mortality. The hospital mortality was 2% (1 patient) related to the underlying disease process. The morbidity was characterized by wound infection (12%), prolonged ileus (38%), and pelvic abscess (4%). The 1-year cumulative probability of restorative proctocolectomy was 2%. Patients with distal ileal disease can be effectively treated with an ileostomy button until evidence of restorative proctocolectomy is obtained.Beginning April 15, there will be no more trains running on the Delhi Metro's Blue Line. Starting April 15, there will be no trains running on the Blue Line of Delhi Metro that commute to Dwarka Sector 21, Dwarka Sector 22 and Dwarka Sector 25. According to a senior DMRC official who did not wish to be named, the reason for halting the trains on the Blue Line is the fact that these lines are outdated and lack a better connectivity. "For these areas, no new trains have been planned since the blue line connects Dwarka Sector 21 and Dwarka Sector 22. In that regard, there is a pressing need to fit new trains with a better connectivity and faster speed to reduce congestion and overcrowding," the official told News18. Soon after this change, there will be no trains connecting Dwarka Sector 21, Dwarka Sector 22 and Dwark c6a93da74d
